

FOOD ALLERGY PLAN

The HISD Food Allergy Plan addresses any student who has a potentially severe food allergy which may require treatment at school. The forms, listed below, will give us the necessary information and authorization to treat your child in an emergency.

1. Food Allergy Action Plan – Should be on file for every student with a severe allergy. Must be updated and signed by the doctor every school year.
2. Medication/Treatment Request – One should be used for each medication sent to school.
3. Individual Care Plan.
4. Statement Regarding Meal Substitutions or Modifications.

The student's supplies should include: Epi-pen with prescription label on it and antihistamine (such as Benadryl), if your child's plan calls for it. Please be alert to the expiration dates on these medications.

If HISD does not have these forms and supplies on hand and your child has a serious reaction, we may need to call 911 to assure your child's safety.

It is important for your child's safety that we have the proper authorizations and supplies on hand in order to respond to an emergency. We appreciate your help in our effort to provide the best care for your child.

Food Allergy Action Plan

Emergency Care Plan

Name: _____ D.O.B.: ____/____/____

Allergy to: _____

Weight: _____ lbs. Asthma: Yes (higher risk for a severe reaction) No

Extremely reactive to the following foods: _____

THEREFORE:

- If checked, give epinephrine immediately for ANY symptoms if the allergen was *likely* eaten.
- If checked, give epinephrine immediately if the allergen was *definitely* eaten, even if no symptoms are noted.

Any SEVERE SYMPTOMS after suspected or known ingestion:

One or more of the following:

- LUNG: Short of breath, wheeze, repetitive cough
- HEART: Pale, blue, faint, weak pulse, dizzy, confused
- THROAT: Tight, hoarse, trouble breathing/swallowing
- MOUTH: Obstructive swelling (tongue and/or lips)
- SKIN: Many hives over body

Or combination of symptoms from different body areas:

- SKIN: Hives, itchy rashes, swelling (e.g., eyes, lips)
- GUT: Vomiting, diarrhea, crampy pain

1. **INJECT EPINEPHRINE IMMEDIATELY**
2. Call 911
3. Begin monitoring (see box below)
4. Give additional medications:*
 - Antihistamine
 - Inhaler (bronchodilator) if asthma

*Antihistamines & inhalers/bronchodilators are not to be depended upon to treat a severe reaction (anaphylaxis). USE EPINEPHRINE.

MILD SYMPTOMS ONLY:

- MOUTH: Itchy mouth
- SKIN: A few hives around mouth/face, mild itch
- GUT: Mild nausea/discomfort

1. **GIVE ANTIHISTAMINE**
2. Stay with student; alert healthcare professionals and parent
3. If symptoms progress (see above), USE EPINEPHRINE
4. Begin monitoring (see box below)

Medications/Doses

Epinephrine (brand and dose): _____

Antihistamine (brand and dose): _____

Other (e.g., inhaler-bronchodilator if asthmatic): _____

Monitoring

Stay with student; alert healthcare professionals and parent. Tell rescue squad epinephrine was given; request an ambulance with epinephrine. Note time when epinephrine was administered. A second dose of epinephrine can be given 5 minutes or more after the first if symptoms persist or recur. For a severe reaction, consider keeping student lying on back with legs raised. Treat student even if parents cannot be reached. See back/attached for auto-injection technique.

EPIPEN Auto-Injector and EPIPEN Jr Auto-Injector Directions

- First, remove the EPIPEN Auto-Injector from the plastic carrying case
- Pull off the blue safety release cap

- Hold orange tip near outer thigh (always apply to thigh)

- Swing and firmly push orange tip against outer thigh. Hold on thigh for approximately 10 seconds. Remove the EPIPEN Auto-Injector and massage the area for 10 more seconds

DEY® and the Dey logo, EpiPen®, EpiPen 2-Pak®, and EpiPen Jr 2-Pak® are registered trademarks of Dey Pharma, L.P.

Adrenaclick™ 0.3 mg and Adrenaclick™ 0.15 mg Directions

Remove **GREY** caps labeled "1" and "2."

Place **RED** rounded tip against outer thigh, press down hard until needle penetrates. Hold for 10 seconds, then remove.

A food allergy response kit should contain at least two doses of epinephrine, other medications as noted by the student's physician, and a copy of this Food Allergy Action Plan.

A kit must accompany the student if he/she is off school grounds (i.e., field trip).

Prescription Medication / Treatment Request

When it is necessary for your child to receive medication during the school day:

- Parents/guardians should deliver the medication/treatment supplies to the clinic or office along with the completed and signed medication/treatment form.
- Medication must be in a bottle from the pharmacy, properly labeled with the student's name, the physician, the medication name and quantity, administration directions with dosage and time and the date of this prescription's issue. *You may ask your pharmacist for a second, properly labeled bottle so you have one for home and one for school.*
- Medications sent in baggies or unlabeled containers, will not be given. Medication will not be accepted if the label has been altered by hand.
- The Prescription Medication Request must be completed each school year and when there are any changes to the original request including a medication and/or dose change. A separate form must be completed for each medication.
- Parents/guardians are strongly encouraged to pick up all medication immediately after it is discontinued. **At the End Of The School Year, All Medication That Has Not Been Picked Up By The Parent/Guardian Will Be Destroyed.**
